

Referral Network for Independent Professionals

Referna matches independent professionals (fractional execs, AI consultants, GEO specialists, and more) into referral circles where trusted peers refer clients to each other.

Pre-Seed Round

EXECUTIVE SUMMARY

BASICS

Problem	Independent professionals' #1 problem is getting the next client.	CUSTOMER →
Solution	Referna matches them into circles of trusted peers who refer clients to each other.	SOLUTION →

EVIDENCE

Will they refer each other?	340K members of an offline network (BNI) pay \$800/yr to refer \$26.4B/yr — for 40 years.	INCUMBENT →
Can we get users?	134 registered, 77 weekly active — doubling every 2 weeks, six weeks post-launch.	TRACTION →

SIZE

Are there many customers?	130M independent professionals globally; 9.26M addressable in the US.	MARKET →
Will it have a moat?	Networks have great moats — and grow fast once seeded.	OPPORTUNITY →

TIMING

Why now	AI is approaching the inflection point where it can facilitate the circles BNI needs 40,000 operators to run.	WHY NOW →
Why us?	We love networks — built 3 already. 2 exits. 2nd startup together.	TEAM →

CUSTOMER

Meet Ami, an independent professional

**Ami B.**

Agentic Marketing Consultant · sells to early-stage · self employed

HERZLIYA · REAL · REACHABLE FOR REFERENCE

\$150K

2025 REVENUE

HIS #1 PROBLEM

Getting the next client.

"That's my #1 problem — isn't it everyone's top one?"

Ami B. · April 2026

***24 of 26** independent professionals interviewed
agreed with Ami.*

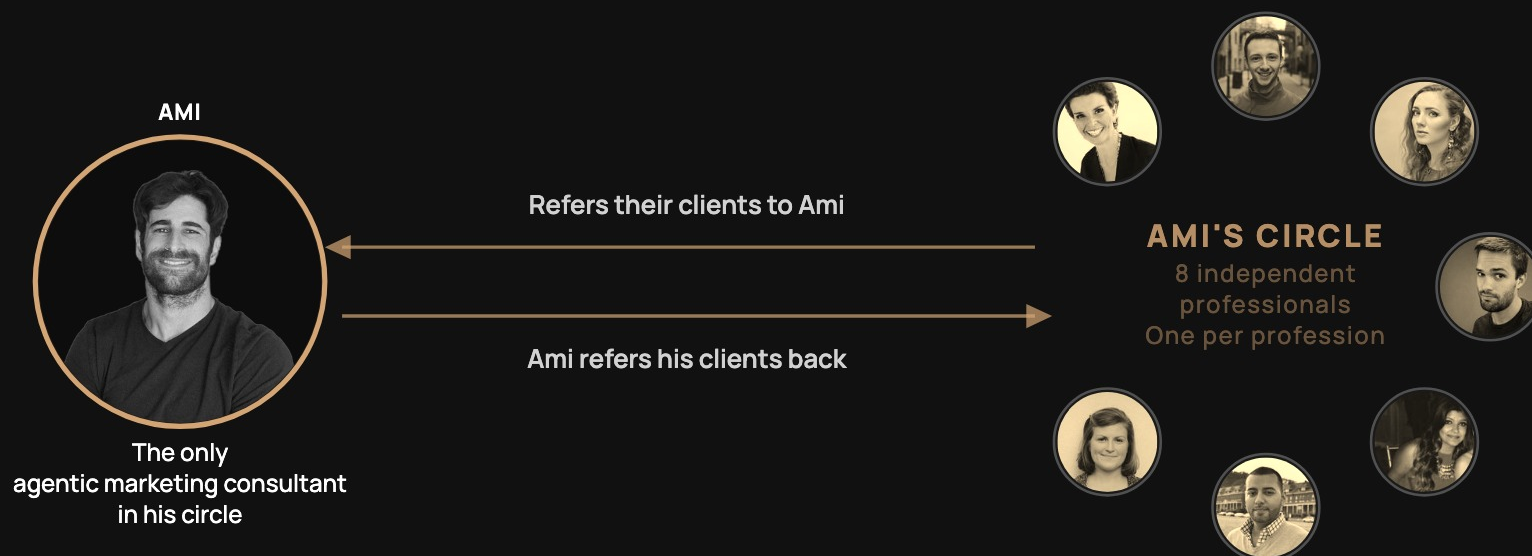

Referna interviews · April 2026

→ For independent professionals like Ami - **getting the next client is the top problem.**

Source: Ami B. interview (Apr 2026)

 **referna** · Referral network for independent professionals

Ami joins a circle of trusted peers who refer clients to each other.

Each referral builds more trust in the circle — that's the flywheel.

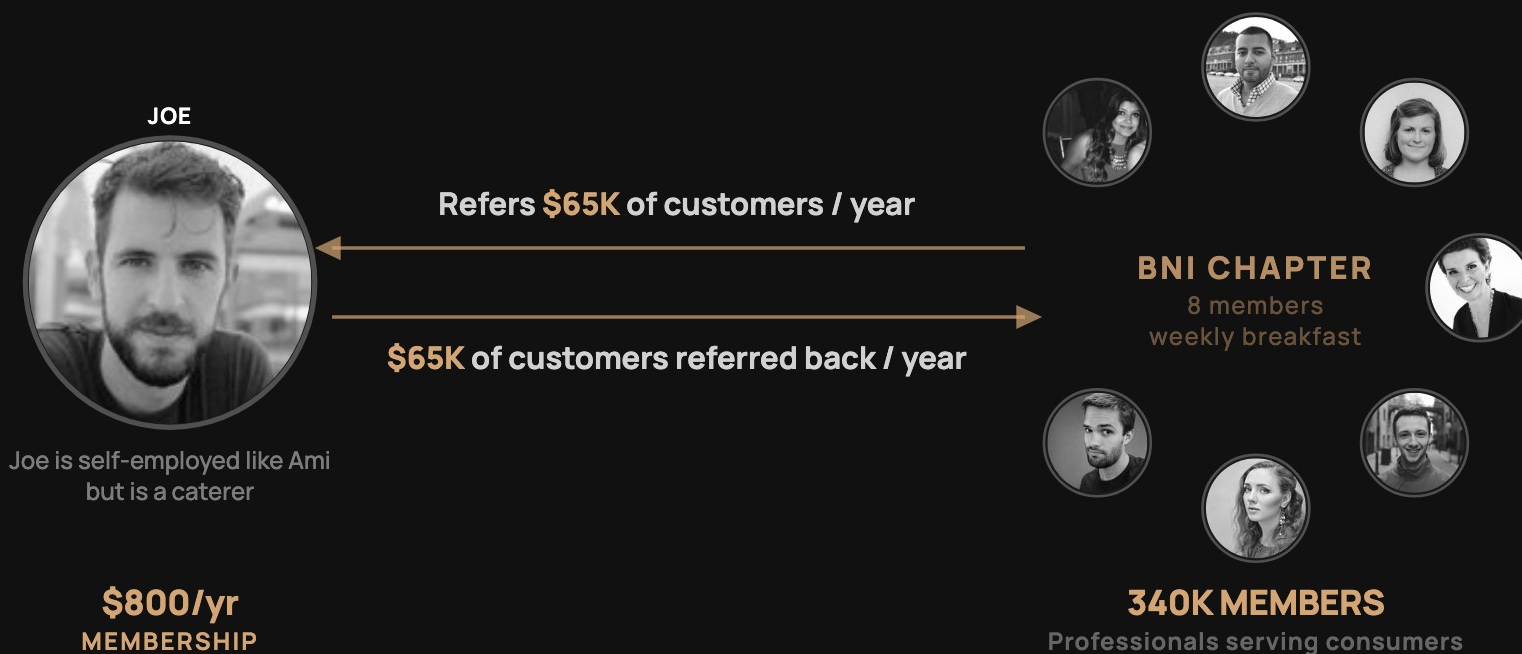

→ For Ami — **circles solve the next-client problem.** He just needs to find his circle.

INCUMBENT

BNI: Referral network — \$26.4B referrals/year

Referna and BNI have the same concept — trusted peers refer clients

→ BNI proved **the model and market** but its legacy methods are limiting growth

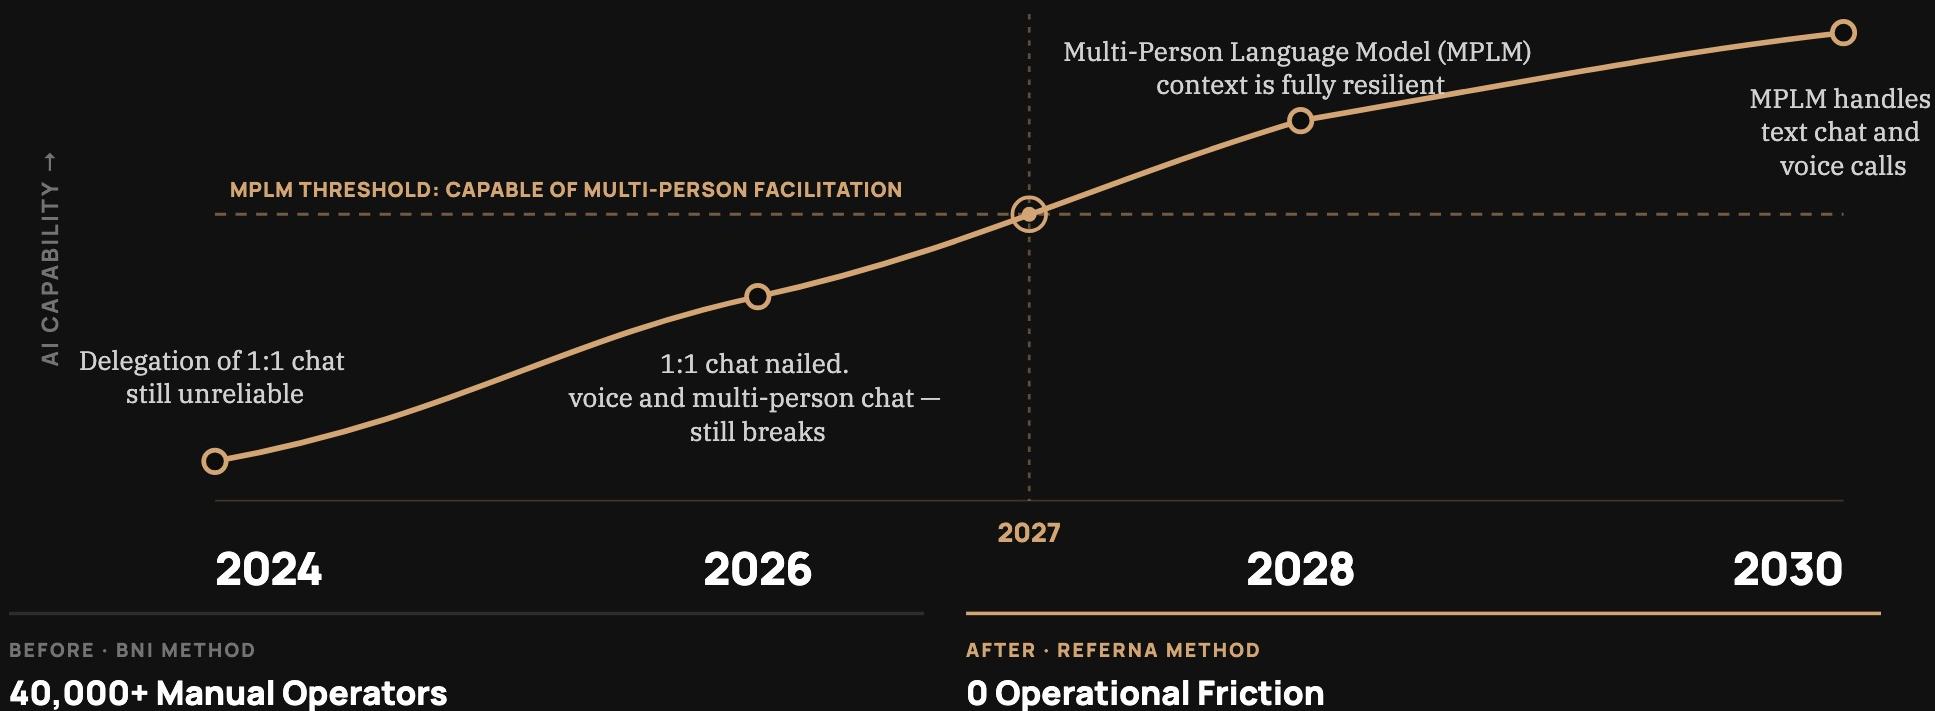

Sources: BNI Mid-Year Report 2025; bni.com; BNI US membership fees (\$575–\$849/yr, 1-year participation)

 **referna** · Referral network for independent professionals

WHY NOW

MPLMs Defeat the Franchise Model

Replacing a legacy army of 40,000+ manual operators (BNI method) with the infinite software scale of **Multi-Person Language Models (MPLMs)**.

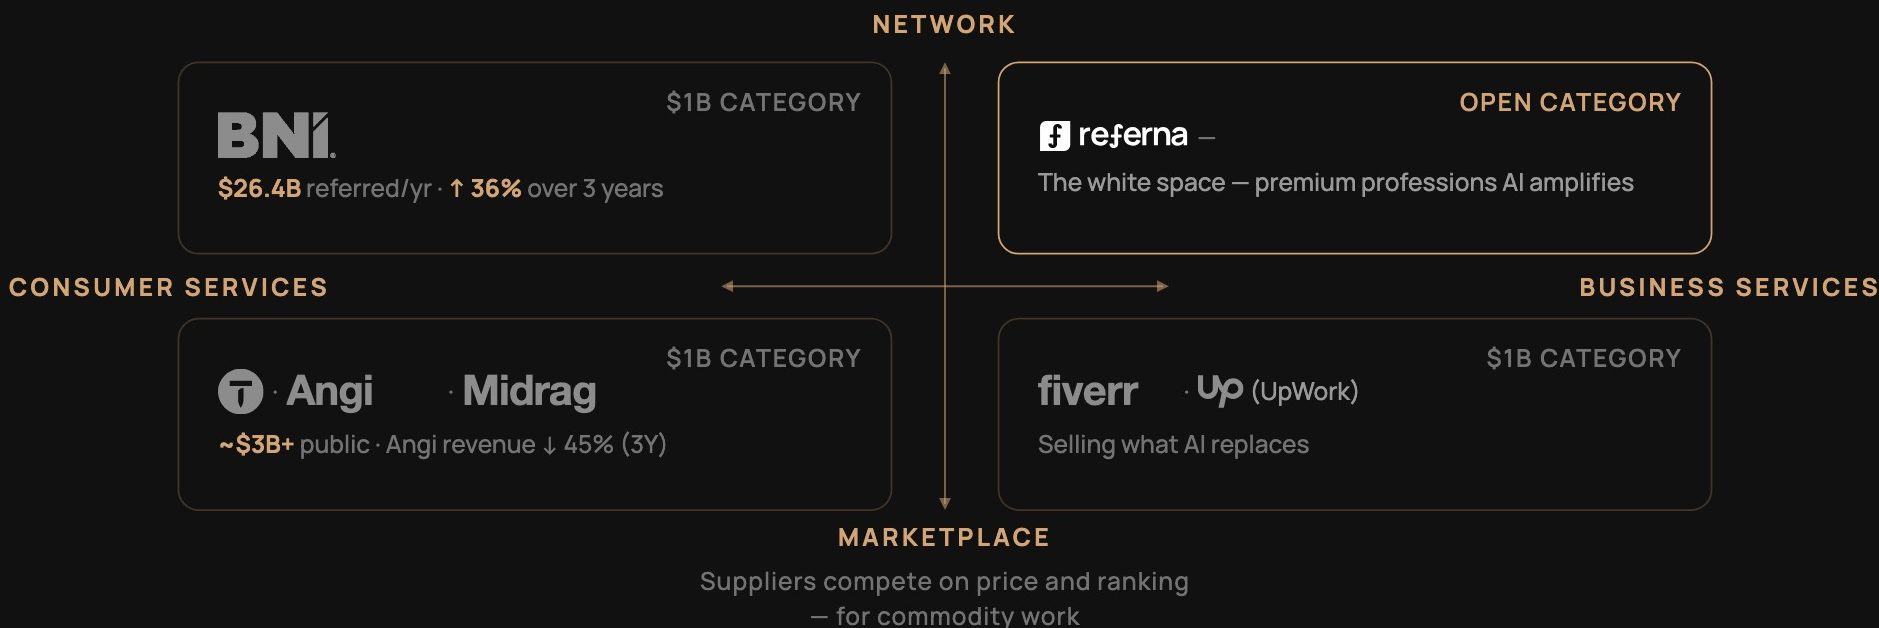

→ MPLMs shift a legacy franchise model into a **high-margin, venture-scale network**.

Sources: Referna analysis · multi-person context-window trajectory · BNI operational structure

 **referna** · Referral network for independent professionals

CATEGORY

What Referna is — and isn't

YPO = peer development for CEOs — different audience, not a referral network.

LinkedIn = different beast — professional graph monetized by ads and recruiters, not a lead source for independent professionals.

→ Each category is a billion-dollar business. The missing quadrant is ours.

TRACTION

Doubling every two weeks.

Weekly active members since the June 1 launch — invitation-led.

Weekly active members

**77**

weekly active members last week

134

registered in the first 6 weeks

×8.5

WAU growth since launch week

→ **How it started: a smoke test at 20× benchmark.** **How it's going: ×8.5 in six weeks.**

Sources: Referna growth dashboard (Jul 13, 2026) · smoke test: 139 cold emails, 30.2% replies, May 2026

 **referna** · Referral network for independent professionals

DISTRIBUTION

Strategically invited, not acquired.

Every circle needs one of each profession — we invite the ones we're missing, and our network nominates candidates.

ONCE INVITED, THEY WANT IN

76%**Cold email invitations**

of replies want in (93 of 123 replies processed).

74%**Personal LinkedIn invitations**

of replies go straight to onboarding or a call (117 of 159 replies; 21 declined).

66%**Circle-opening posts**

of hand-raisers became registered members (23 of 35) — 10+ leads per post. **Our network nominates candidates in the comments.**

WE INVITE WHO THE NETWORK IS MISSING

Member professions today — the short bars are the invitation list:

OPEN SEATS IN THE LIVE CIRCLE, RIGHT NOW

Startup Lawyer

PR / Comms

Sales Advisor

Exec Coach

Fractional VP HR

→ When we invite them, they want in. **Scale is just getting the word out.**

PRODUCT 1

Three ways to meet. One destination: referrals.

The live product — every visual is a real screenshot (members blurred).

JOURNEY START: NEEDS REFERRALS

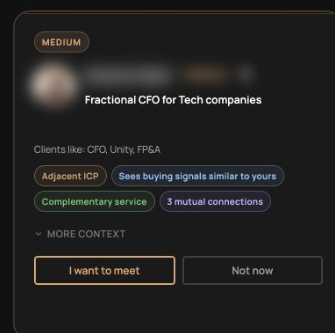

1 · APPLY

10-minute application

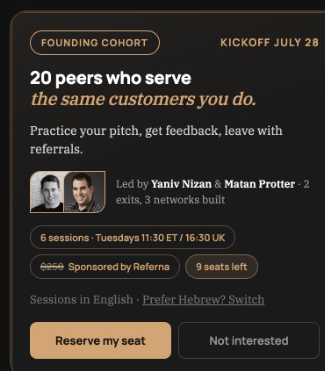

Who you serve, what a great referral looks like, calendar connect. Gordy builds your profile.

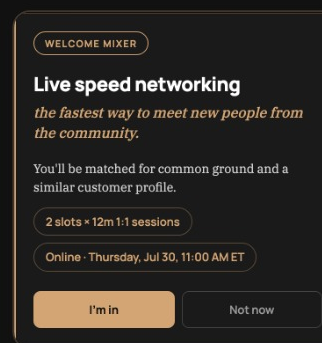

2 · MEET YOUR PEERS — THREE LANES

1:1 matches — mutual opt-in, Gordy books the call

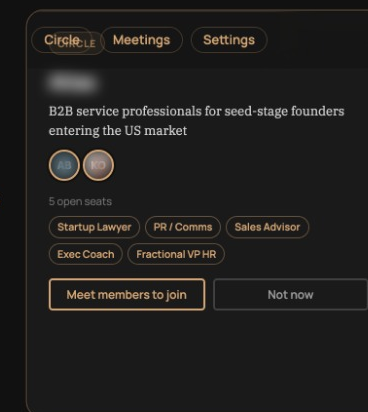

Cohort — six weekly founder-led sessions

Live mixer — speed networking, shipping now

3 · JOIN YOUR CIRCLE

8–12 peers who serve the same customer — and refer each other

JOURNEY END: GETS REFERRALS

→ Every stage creates referrals. The circle makes them consistent.

Sources: Referna app screenshots, production, July 2026 (member names blurred)

PRODUCT 2

Gordy is AI chapter chairman + members committee.

BNI runs on ~40,000 human operators. Referna runs on one AI.

01 Onboards every member

Application, profile build, calendar connect — no human in the loop.

02 Recommends matches

By customer overlap and buying signals — not geography.

03 Schedules & runs the 1:1 intro calls

Finds the time across calendars, sets the agenda, joins the call, sends the recap.

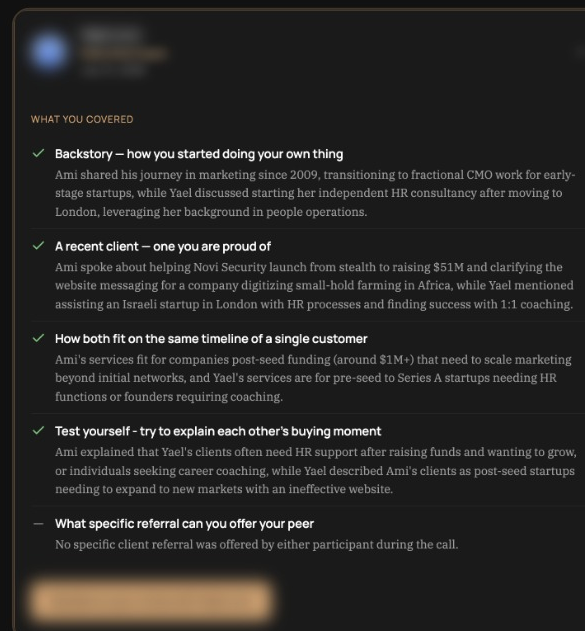

04 Rewards contribution

Points for inviting, meeting, and referring — the behaviors that grow the network.

05 Keeps score so everyone benefits

Tracks give & take per member — the fairness a paid network must guarantee.

→ The operator role that caps every human network is now software.

A real Gordy-run 1:1, July 14 — note "Test yourself"

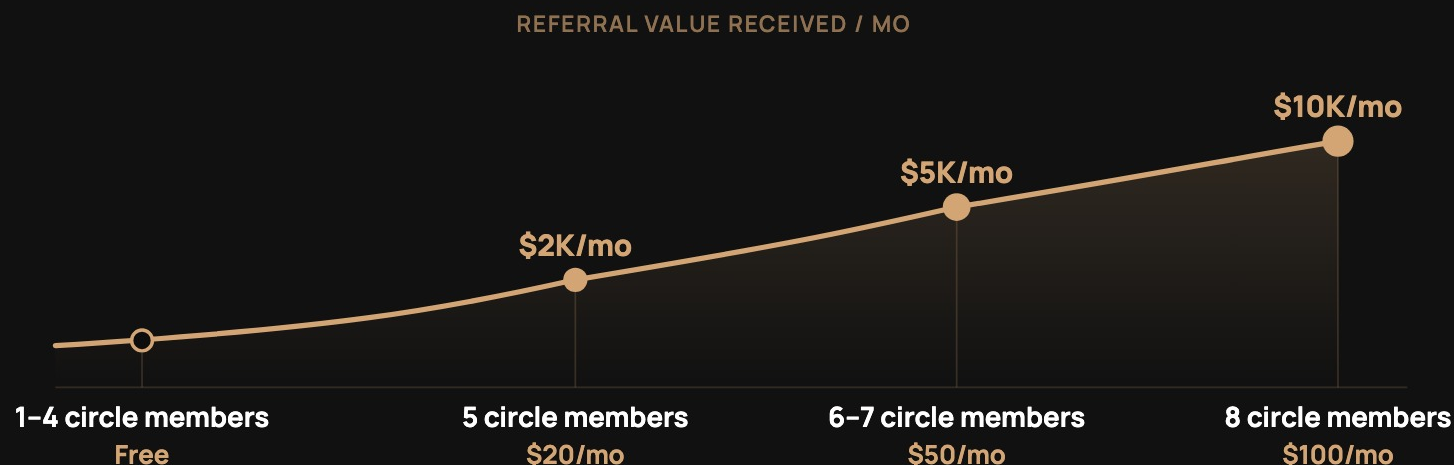

Sources: Referna live-meeting agent, production call, July 2026 (names blurred)

BIZ MODEL

Referna makes money by charging a membership fee.

LOW FRICTION

Starts free

CAPTURES 1%
of value created

→ Proven business model that captures 1% of generated value with low friction.

Sources: Referna pricing schedule · monthly figures per member, illustrative (fee = 1% of referral value) · BNI, YPO, TAB also charge membership fees

 **referna** · Referral network for independent professionals

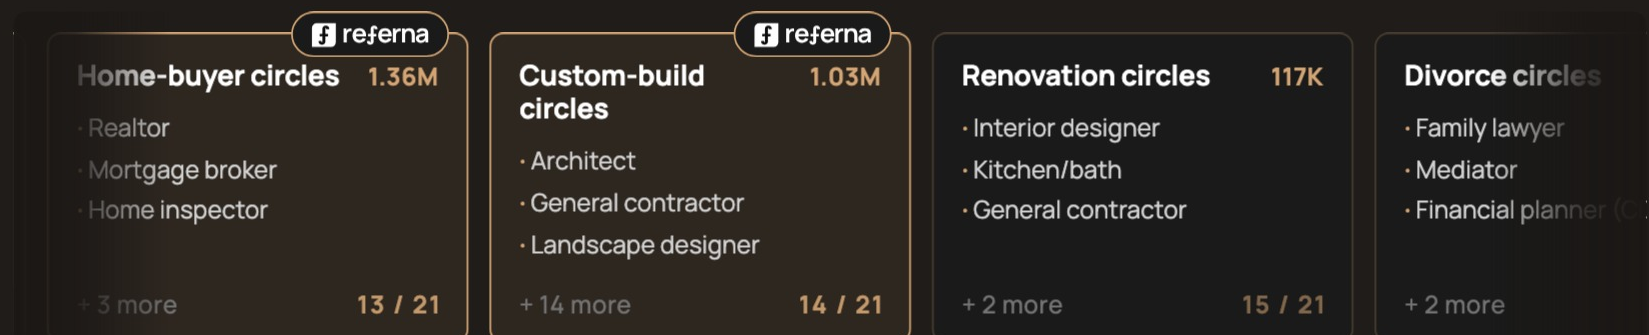

MARKET

21 segments. Startups segment first.

~130M independent professionals worldwide

6.17M in the US, across 14 segments

\$926B REFERRAL MARKET VOLUME
(math: ~\$100K per professional)

→ **9.26M** addressable but **starting where we'll grow fastest.**

Sources: US Census Bureau, BLS, LinkedIn (1.3B members, 2026), Referna market analysis

 **referna** · Referral network for independent professionals

TEAM

Two founders, two exits

3.5 years working together

Yaniv Nizan

Co-Founder & CEO

- CEO & co-founder of SOOMLA (acquired by ironSource/Unity)
- Built 3 networks — IntentClick (\$4M ARR ad network at Kontera), SOOMLA's payer-data network, SOOMLA's ad-creative network
- Customer in 4 referral-driven segments — startups, divorce, home-building, weddings

Matan Protter

Co-Founder & CTO

- CTO & co-founder of Infinity (acquired by Alibaba)
- 9 patents
- Talpiot graduate · PhD Technion
- 3.5 years shipping products with Yaniv — SynqUp and Referna

→ **Second startup together. 30+ combined years of building products.**

Sources: founder track records

referna · Referral network for independent professionals

ROUND

Pre-seed for 24 months

12-month milestone: 4,000 Weekly Active Users

IT'S ACHIEVABLE

We've doubled every ~2 weeks since launch (77 WAU). 4K is just six more doublings — and the milestone gives us 12 months.

IT'S ENOUGH FOR SEED

- Network businesses raise seed at this scale (Clubhouse, Boardy, ...).
- 4,000 WAU → ~500 weekly referrals → ~\$130M annualized economic value.

WHAT WE NEED

Pre-seed · 24 months runway · Team of 4 (founders + 2 Talpiot graduates) · 12m buffer before seed.

Active = engaged with another user in the last 7 days

Referral = introduction at the moment of need (proof: the call)

→ 4,000 active is **seed-ready scale** for a network business — and we have the path.

Sources: Referna product data; segment sizing (slide 8)

Why this is a great opportunity

Proven model.

BNi runs the offline version at
\$26.4B/yr — 340K members.

Fast growth.

Doubling every 2 weeks.
77 WAU, 134 registered in 6 weeks.
3 of 4 invitation replies are positive.

Winning team.

Two post-exit founders.
Second startup together.
Built 3 networks already.

We're moving fast. Move with us.
